

Dr. Mary Ann Rankin

Dr. Mary Ann Rankin, President and CEO of the Pointsman Foundation, decided to step down from her leadership role effective March 1, 2023 due to the many demands of other duties and responsibilities. We thank her for her work in the past year which has strengthened the foundation and created a solid base for future growth. We are very pleased that Mary Ann will continue to serve as a Pointsman Foundation Board member.

Mary Ann Rankin is a proven leader, serving as a long-standing Dean of Natural Sciences at UT Austin, President of the National Math and Science Initiative (NMSI), and then as Provost at the University Maryland in College Park. We look forward to working with Mary Ann on the Pointsman Foundation Board to help advance the mission of the Pointsman Foundation.
